Teacher Education - MUSIC

The B.A. in Music with K-12 licensure is designed to prepare highly qualified, entry-level professional music educators. Graduates will exhibit academic and technical competence and an appreciation of diverse abilities and cultures in school, community, and professional settings. Because of the broad scope of music education, this major provides two tracks from which students may choose: vocal/general and instrumental/general.

Applied Music (Lessons) Expectations (APMU)

Weekly one-hour private lessons in brass, harpsichord, organ, percussion, piano, voice, and woodwinds are offered for credit. For one credit hour the student is expected to practice at least six hours per week.

Upon beginning study in applied music lessons, the instructor will place the student at the proper level (elementary, intermediate, advanced), which is indicated by the first digit in the course number. The second digit indicates the area of study, and the third digit indicates the number of semesters a student has on one level of competency.

There is no limit to the number of semesters a student may spend at one level. Advancement from one level to another is accomplished through performance juries and is a decision made by the faculty of the music program.

Student Learning Outcomes for Teacher Education

In addition to the discipline specific student learning outcomes for Music, teacher candidates will demonstrate mastery of the following Student Learning Outcomes, which are aligned with the both Tennessee Teacher Licensure Standards: Professional Education and InTASC Standards: Interstate Teacher Assessment and Support Consortium.

1. The pre-service teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline(s) accessible and meaningful for learners to assure mastery of the content.
2. The pre-service teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.
3. The pre-service teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections and to build skills to apply knowledge in meaningful ways.

Participation in Concerts

The music program generally produces six full concerts each academic year and numerous church visits each semester. Music education majors are expected to be involved in several concerts each year as a member of a musical ensemble. In addition, all music and music education majors are required to complete a keyboard proficiency examination as designed by the music faculty and to perform a solo recital during the senior year in their primary instrument (voice, piano, organ, band instrument).

The department frequently invites guest artists to campus for performances and workshops for students. The department encourages student participation in national conferences and festivals and prepares students for internships with music professionals in the area. Participation in concerts is open to all students, regardless of major, and community members.

All students graduating from King with a major in music education may be suitable candidates for graduate school offering an advanced degree in music education. Music education majors are prepared to pursue careers in teaching music, performance, and/or music ministry.

Students who major in music education at King will demonstrate a basic knowledge of music theory through the correct application and analysis of four part writing in an original composition, demonstrate knowledge of Western musical heritage as interrelated to the development of western civilization, display competency as a performer and conductor, and

demonstrate preparation for future leadership in music in various educational and musical settings.
