

Program Coordinators: B. Macione for Spanish and R. Gilmore for Education

Teacher Education - SPANISH

The B.A. in Spanish with Tennessee teaching licensure (Grades 6-12) is available with modifications to the Spanish major and the King Core Curriculum, and successful completion of the Secondary Education minor. Licensed teachers in secondary education are in great demand in all fifty states, and foreign languages are considered a critical need area in K-12 public education by all states.

Declaration of the Education minor and early and frequent advisement is essential to timely completion of degree and licensure requirements. Students seeking teacher licensure will be assigned a secondary education advisor in the Department of Teacher Education, in addition to their major advisor. See the “Admission to the Teacher Education Program” section of this catalog or contact the Certification Advisor in the School of Education for eligibility criteria, admissions procedures, and timelines.

An immersion experience in a Spanish-only environment is required and must be pre-approved by King University Center for Study Abroad.

Student Learning Outcomes for Teacher Education

In addition to the discipline specific student learning outcomes for Physics, teacher candidates will demonstrate mastery of the following Student Learning Outcomes, which are aligned with the both Tennessee Teacher Licensure Standards: Professional Education and InTASC Standards: Interstate Teacher Assessment and Support Consortium.

1. The pre-service teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline(s) accessible and meaningful for learners to assure mastery of the content.
2. The pre-service teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.
3. The pre-service teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections and to build skills to apply knowledge in meaningful ways.
